

GKN Driveline in India

GKN Automotive

GKN Driveline

Sideshafts, propshafts, torque management devices, geared components

Powder Metallurgy

Powder part production, powder manufacture

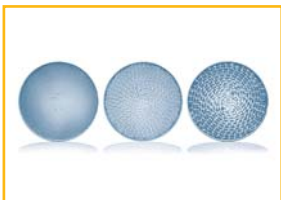

OffHighway Systems

Power-take-off shafts, wheels

AutoComponents

Suspensions, chassis structural systems, engine cylinder liners

Emitec

Metal substrates for catalytic converters

GKN Driveline's Mission

Our mission is to design and manufacture superior driveline products supported by the best customer service. By doing this we will create value for customers and shareholders.

GKN Driveline

GKN Driveline is the largest business within GKN, and a world leader in the design and production of driveline components and systems. The business produces sideshafts, propshafts, mechanically and electronically controlled torque management systems and geared components.

The GKN Driveline range covers every application from entry level front-wheel drive vehicles to the most sophisticated all-wheel drive models. 21,000 people are employed at 49 locations in 31 countries, with strategically sited research and product development centres supporting vehicle manufacturers throughout the world.

Faridabad

GKN Driveline Faridabad was established in 1986 for manufacturing sideshafts. The facility also has a state-of-the-art test centre.

Dharuhera

GKN Driveline Dharuhera started manufacturing sideshafts in 1997.

Gummidipoondi

GKN Driveline Gummidipoondi was established in 1996 to assemble sideshafts.

GKN Driveline in India employs nearly 450 people.

GKN Driveline in India

GKN Driveline is a premier partner of the automotive industry worldwide. Producing driveline components for vehicle manufacturers from 49 locations across five continents, 21,000 GKN Driveline people focus their energy and imagination on finding new ways to provide added value for customers, drawing on the world's widest range of driveline components and technologies to engineer total systems that deliver improved performance, for many vehicle configurations.

In the 1980s, GKN Driveline was the first company in India to manufacture sideshafts for front-wheel drive vehicles. To support our world-class customers, manufacturing facilities were strategically sited to enable Just in Time (JIT) supplies for customers in India.

GKN Driveline:
partners in performance;
partners in progress;
partners in India.
